Conservation status of animals

Distribution of endangered species by habitat

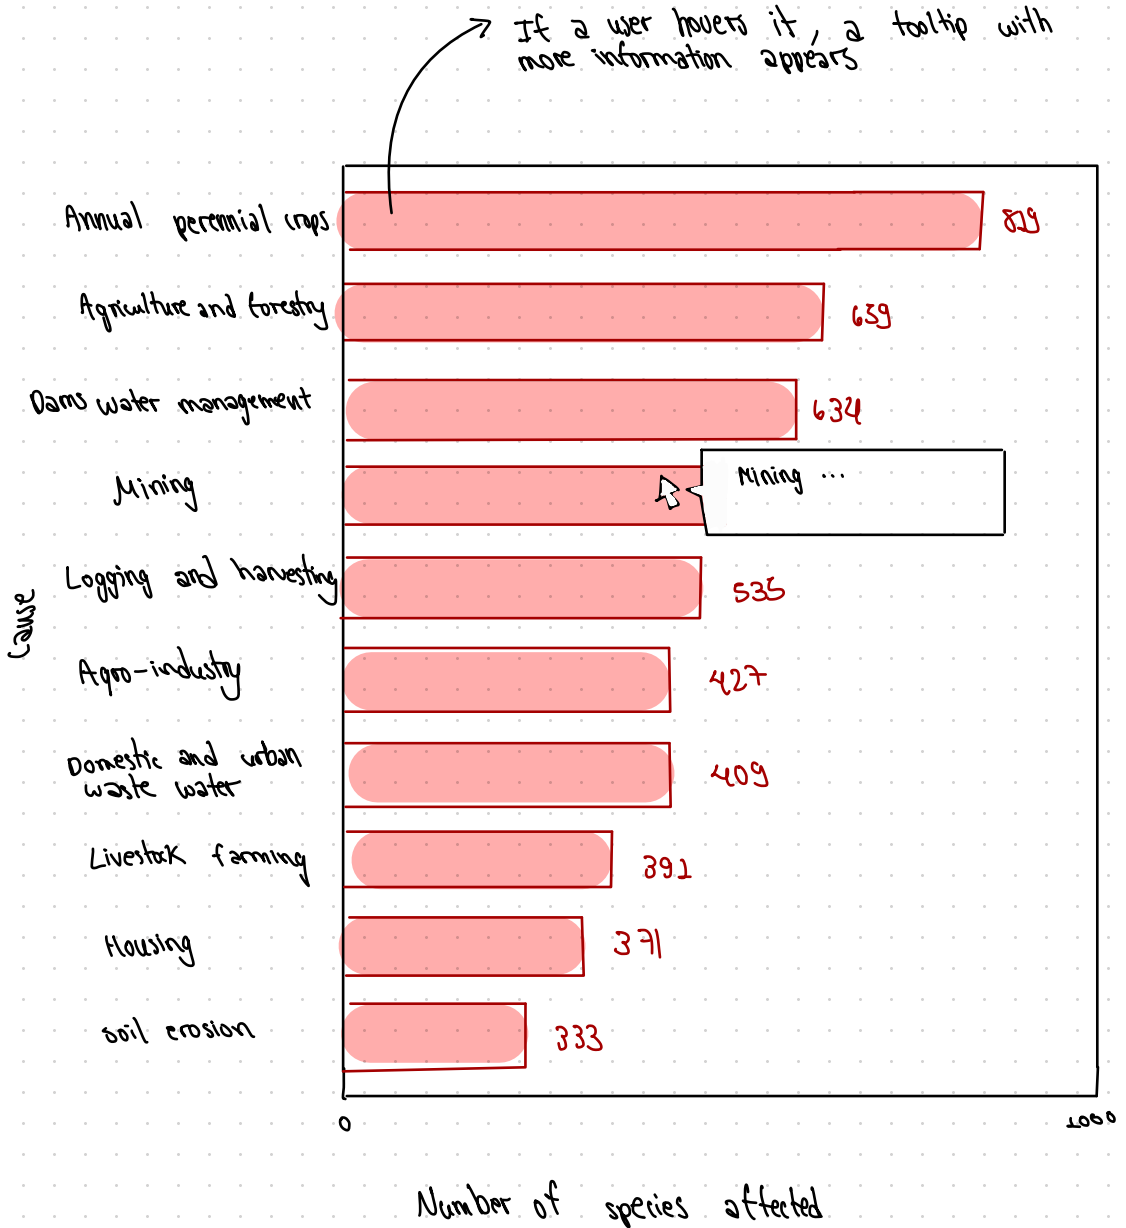

Treemap

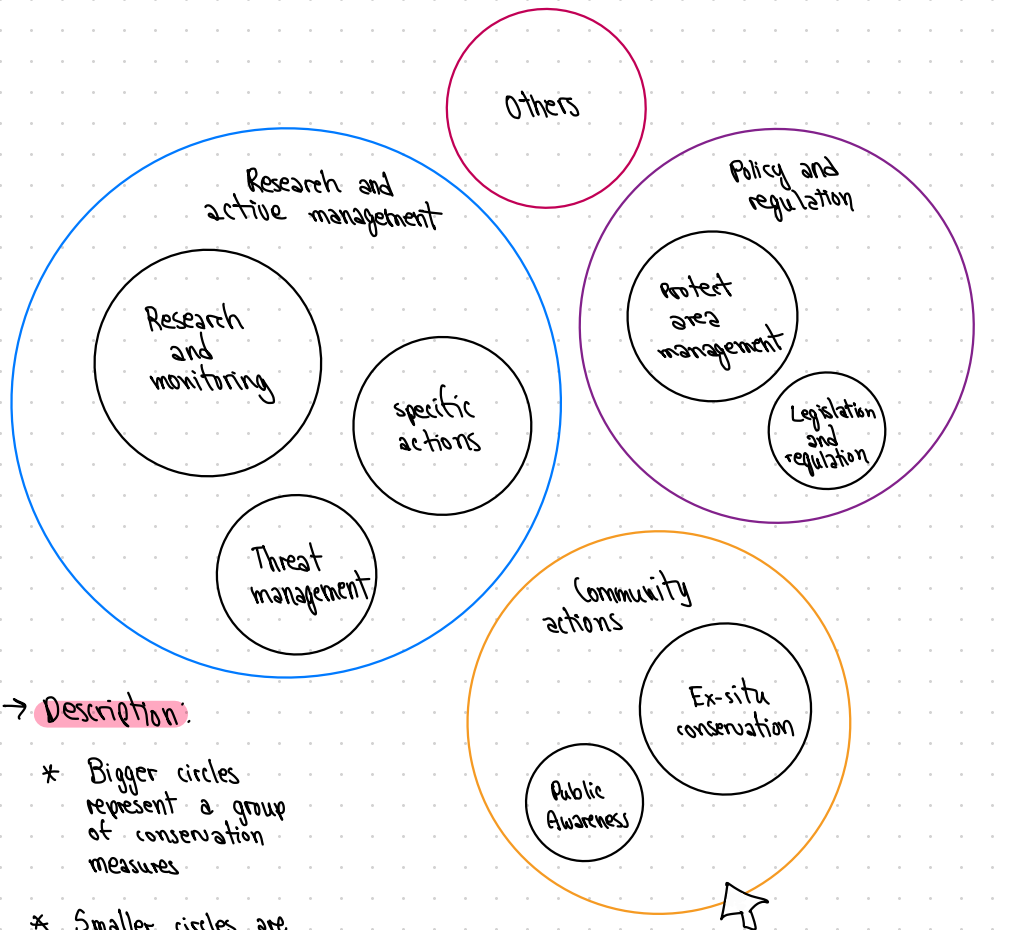

* we have the number of animals per habitat (it can have more than one habitat)

↳ In our data we have many records that start with a general habitat and continue with specific details.

Top 10 threats to animals

Conservation measures to protect endangered animals

→ Description:

- * Bigger circles represent a group of conservation measures
- * Smaller circles are specific measures implemented in a group

When a user hovers a circle, it will grow

- * The sizes depend on how many animals are under these conservation measurements.
